Visit us on the Web! www.academicsoftwareusa.com

Welcome to our newest edition of our Productivity Catalog, where we feature software by leading manufacturers, who offer special prices to educational institutions, faculty, staff and students. All of these titles are the same full-working versions you would find at regular retail prices.

This catalog is organized in alphabetical order, by manufacturer. In addition, there is an index at the back, in case you do not know the publisher's name. As long as you know the title for which you are looking, you'll find it easily, if an Academic price is available.

To purchase these programs, schools may send a school purchase order, or request on school letterhead. Purchases by qualified faculty, staff and students require proof of current enrollment or employment. Each publisher has its own qualification policy, which we can explain to you when you call. You may call in your order with a major credit card number, or mail it in, along with your proof of qualification, with a check, money order or credit card number. You may also order many titles over our website – www.academicsoftwareusa.com. Each publisher now requires the end-user's e-mail address, for delivery of license certificates. Please be sure to include your e-mail address on your order.

There are some publishers new to this edition, some familiar titles now published by other companies, as well as lots of new versions and titles from existing publishers. We are always updating this list, as prices change and more titles become available, or disappear. If you don't see it listed, just call for pricing and availability. Of course, this is just a fraction of the software we carry, so if you have specific needs, our Multimedia catalog or full-line catalog(s) may be helpful to you - please call us for your copies.

We are looking forward to meeting all of your educational software needs.

Yours truly,

Rachel Eastman
Vice President

ADOBE STUDENT AND TEACHER EDITIONS
New Program - now Teachers and K-12 Students can save!

Adobe Student and Teacher Editions are for use by students in K-12 or higher education, and teachers at K-12 or higher education institutions. They do not come with a serial number. Before the software can be installed, students must obtain a serial number by submitting proof of eligibility for this program to Adobe. If you cannot provide proof of eligibility, you will not be able to use this product. A higher education student is defined as a full or part-time student enrolled at a higher education institution defined as an accredited public or private university or college (including community, junior or vocational college) that grants degrees requiring no less than the equivalent of two (2) years of full-time study. Primary and secondary students are those enrolled in a full-time program at an accredited primary or secondary school. Teachers are defined as those employed by an accredited primary or secondary school, or a public or private university or college

Student and Teacher Edition end users may purchase only one license each of any Adobe Student Edition product. This license may be used only on a privately owned computer. These products may not be resold by the end user. You must provide to Adobe (not to Academic Software) a photocopy of a valid, current student ID that includes your name, a date, and a photo. If you do not have such an ID, you must instead provide a photocopy of a valid photo ID and one of the following items:

- Official, current non-photo student ID with name and date
- Official, current school transcript indicating name of school and student
- Official, current tuition bill indicating name of school and student
- Official, current report card indicating name of school and student
- Other official dated proof of enrollment.
- Other identification as permitted by Adobe from time to time by posting a list of such Appropriate Identification on its Internet website.

Students who are under 18 and do not have a valid photo ID may provide an official letter from their eligible educational institution stating their name and current enrollment status. *PLEASE NOTE THAT WE ARE UNABLE TO ACCEPT RETURNS OF ANY KIND*

ON ADOBE STUDENT AND TEACHER EDITIONS, SO YOU MUST BE 100% SURE THAT YOU HAVE THE REQUIRED PROOF OF ELIGIBILITY BEFORE PURCHASE.

65011108	CS4 Web Standard for WinXP/Vista	DVD	\$	389.00

ADOBE OPEN OPTIONS 5

Each program has a point value, and the minimum purchase is 1 point for Tier 1 pricing and 2500 points for Tier 2 pricing.

First, look at the point value for the titles you want to buy, including Upgrade Plan. Multiply those by the quantity you need for each, to get a total point count. Then, use either Tier 1 or Tier 2 pricing.

You may mix and match among titles and Upgrade Plan to reach your minimum point value.

Media Kits must be purchased separately, at the time you purchase the licenses.

This can be confusing, so feel free to call us for a specific quote.

(E-mail address is required, for delivery of licenses.)

MICROSOFT LICENSING

Minimum purchase 5 licenses mix and match

You may purchase these licenses to use earlier versions of that title. Please call for more information.

We provide 1 installation CD at no charge for a minimum of 25 licenses of a title ordered.

Otherwise, Installation CDs costs \$30.00 each, or may be downloaded at no charge from Microsoft's eopen website, when you register your licenses.

(E-mail address is required, for delivery of licenses.)
